20 September 1989

MEMORANDUM FOR THE RECORD

SUBJECT: Intelligence Authorization Bill

1. On 20 September 1989, I called Annette Rooney at OMB and informed her that the Director of Central Intelligence would support language in the Administration floor statement on the Senate version of the Intelligence Authorization Bill threatening a veto of the Bill if the restrictions on the Reserve for Contingencies remain in the Bill.

2. I indicated to her that it was the Director's desire that a compromise be reached and that National Security Advisor Scowcroft would make one last attempt at reaching a compromise with Senator Cohen. I also informed her that we had heard that Mr. Scowcroft had talked to Senator Cohen and that it appeared that a compromise was not possible. Ms. Rooney thanked me for the information, and stated that the Director's views would be made known to the White House.
